The Lebanese Government strongly condemns the continued Israeli occupation and the new attacks and arbitrary actions against the Lebanese population which have caused a number of injuries and have inflicted further serious damage to property.

Like previous attacks, this new series of aggressions is a blatant infringement of the sovereignty and independence of Lebanon and is a violation of the principles of the Charter of the United Nations, of international law and of fundamental human rights.

I should be grateful if you would have this letter circulated as a document of the General Assembly, under agenda item 33, and of the Security Council.
